Little Mix, With You

Na na na na na na, oh-oh
Na na na na na na, oh-oh
Na na na na na na, oh-oh

I see the smile on your face
When I shut my eyes and I wish to God that I could erase it
I see the smile on your face

I hear the sound of your voice
Oh and I try to go quiet and I wish I had a choice, but...
I hear the sound of your voice

And my friends all say that I gotta find another way
But there's nothing that anyone can say to make me stop
Cause
All I can think is that

I should be whitcha, I should be whitcha, I should be whitcha, (Ooh-ooh)
Every time I see you (ooh-ooh)
Baby, I can't stop thinking that, oh
I should be whitcha, I should be whitcha, I should be whitcha (Ooh-ooh)
Every time i see you (Ooh-ooh)
All I can think is I should be whitchu
With you, with you (Ooh-ooh)
Oh, baby, I can't stop, I should be whitchu

I had your heart in my hands
Mmm, and I lost control and I dropped it in some sand
I had your heart in my hands

And my friends all say that I gotta find another way
But there's nothing that anyone can say to make me stop, 'cause
All I can think is that

I should be whitcha, I should be whitcha, I should be whitcha
(Ooh-ooh)
Every time I see you (Ooh-ooh)
Baby, I can't stop thinking that I should
(I should be whitcha, I should be whitcha, I should be whitcha)
I should be with you (Ooh-ooh)
Every time i see you (Ooh-ooh)
All I can think is I should be whitcha, you, you
Oh, baby, I can't stop, I should be whitcha

If you can't be without him, let me hear you say uh-oh, whoah
(Whoa-oh, whoah) Hey
Then we do it again
If you wanna be around him, let me hear you say uh-oh
(If you can't be without him, let me hear you say uh-oh)
Na na na na, oh-oh (Hey)
Lets do it again

I should be whitcha, I should be whitcha, I should be whitcha
(Ooh-ooh)
Every time I see you (ooh-ooh)
Baby, I can't stop thinking that I should
(I should be whitcha, I should be whitcha, I should be whitcha)
I should be with you (I should be whitcha) (Ooh-ooh)
Every time I see you (Ooh-ooh)
All I can think is I should be whitcha, you, you
Oh, baby, I can't stop, I should be whitcha
