Pink, All Out Of Fight

We had life in our eyes
And the world was on our side
Speeding along with no map
It was all green lights
It was just and I
When something dies
Doesn’t mean that it’s over
We’re not like them
We don’t have to be cold as ice
We could be you and I

So take my hand for the last time
And find my eyes with yours

I’m all out of fight
My heart will always know your name
I’m all out of love
But look at all the love we made
I’m all out of life
Oh babe it’s killing me to say
I’m all out of love
I’m all out of life
I’m all out of fight

We were two broken parts
From the same old junk yard
Battered and bruised
And we tried so goddam hard
To be you and I
I’m proud of us babe
Cause we held thru the pain
And when everything hurt
We still rain thru the rain and a night
That was you and I

So come here close for the last time
Put your heart on mine
Ohhhh

I’m all out of fight
My heart will always know your name
I’m all out of love
But look at all the love we made
I’m all out of life
Oh babe it’s killing me to say
I’m all out of love
I’m all out of life
I’m all out of fight

I never asked for easy
But it shouldn’t be this hard

I’m all out of fight
My heart will always know your name
I’m all out of love
But look at all the love we made
I’m all out of life
Oh babe it’s killing me to say
I’m all out of love
I’m all out of life
I’m all out of fight
Ohhhh

I’m all out of fight

My heart will always know your name
I’m all out of love
But look at all the love we made
I’m all out of life
Oh babe it’s killing me to say
I’m all out of love
I’m all out of life
I’m all out of fight

I’m all out of fight
