MARINA, Orange Trees

orange /4x

I can see the flowers and the greenery
I take a breath of air, I feel free
Spent so long, was busy chasing happiness
When all I needed was a little peace

try to get back to what we need
living like we’re supposed to be

Flowers in my hair
I belong by the sea
Where we used to be…
Sitting by the orange trees.
summer in the air
bodies in the heat
just you and me
sitting by the orange trees

so far away
far from neon lights and city streets
this is where I used to dream
been around the world
but I could never relicate
the feeling that I get beneath my feet

try to get back to what we need
living like we’re supposed to be

Flowers in my hair
I belong by the sea
Where we used to be…
Sitting by the orange trees.
summer in the air
bodies in the heat
just you and me
sitting by the orange trees

orange /4x

watch the sun go down into the sea
wrap your love around me
life is beautiful and now you see
this is how it feels to be free

Flowers in my hair
I belong by the sea
Where we used to be…
Sitting by the orange trees.
summer in the air
bodies in the heat
just you and me
sitting by the orange trees
