SEVDALIZA, HUMAN

I am, I am
I breathe in and out
I own a heart
In the night
I've only been here one time

It's passing me by
Into the night
In the front of my judgmental eye
Precious dismay
Being so cold
Going on my own fear

I am flesh, bones
I am skin, soul
I am human
Nothing more than human

I am sweat, flaws
I am veins, scars
I am human
Nothing more than human

I am human
I am human

Human
Human
Human
Human
