DNCE, Body Moves

Side to side
Walking home
Standing alone
Getting curious
It’s On your mind.
Change of minds
What's on your mind?
Cause what's on mine's a dirty mind
Why so serious?

The stars above are a light away
Just take my hand and hear the words I say
And when the morning comes, I'll always stay
You gotta know, you gotta know that I'm feeling this

Coming home with me, we'll rock them body moves
Me and you
Body moves
You're coming home with me, oh baby, let it loose
Me and you, just a little bit
Body moves, just a little bit
I don't need it, but you know how bad I want it
And your touch has got me haunted, but I like it
Coming home with me, we'll rock them body moves
Me and you, just a little bit
Body moves, just a little bit
