Doja Cat, Love Life

[Verse 1]
I love it when my clothes smell fresh
I love it when my fans speak French
I love it when they like my 'fits
I love it, how up-high my tits
I love the way my man throw dick
I love his lips
I love it when my friends call back
I love showin' them brand new [?]

[Chorus]
I love it when my life's like this
I love it when my life's like this
When my life's like this
And I love it when my life's like this
I said, I love it when my life's like—

[Post-Chorus]
When life's like this, I'm thankful
Awesome, good vibrations
When life's like this, be grateful
One life, one chance, take it

[Verse 2]
They love it when I write like this
I love it when my team feel strong and them bills flowin' in
I love that they don't fight like that
'Cause everybody know how to act
Because we tight like this
Now all of them be gettin' along
I hope that I can ease from the stress
Can I chime in?
I know I've been a root to the cause
I know I've had a temper before
But still, y'all don't quit
I understand you want me to win
I understand how hard that you've been
I understand the cause and effect
Now like dog eat dog and cat eat fish
I understand the jungle we in
But let me finish
We all gon' make mistakes and it's cool
I love how you prove
You offer me too and make my life feel simple
I know what that you loving me down
