Dua Lipa, CAN THEY HEAR US (piosenka z filmu

Every breathe that i take in
Every step that i make in
Ain’t no way I can run without you

Every ghost in my past life
Held my hand when i
Carries me whn i wanna breaka through

We all die
But right now
I feel lile livin
And we all cry
But right now
I am not gonna give in
When we collide
I know i can do anything
Cause i got you, and you got me

Can they hear us?
They been on my mind
Mayne, i am delirious
We all die
But right now i feel like livin’
Can they hear us?
Can they hear us?

Anywhere that i turn to got me going in circles
No matter what
I’ll make sure we get out

Cause
We all die
But right now
I feel lile livin
And we all cry
But right now
I am not gonna give in
When we collide
I know i can do anything
Cause i got you, and you got me

Can they hear us?
They been on my mind
Mayne, i am delirious
We all die
But right now i feel like livin’
Can they hear us?
Can they hear us?
