

# BURNS x Maluma x Rae Sremmurd, Hands On Me

baby, keep your hands on me  
know that I should leave  
but I just can't leave you  
know you feel my energy  
if I took your heart  
swear my energy  
if I took your heart  
I didn't mean to

you got a man  
but I don't know that  
it's hard to control when you work like that  
why don't we take one more sip  
just to hide the fact  
that I'm about to take one missed call  
before it turn to trash  
before it turn to trash

baby, keep your hands on me  
know that I should leave  
but I just can't leave you  
know you feel my energy  
if I took your heart  
swear my energy  
if I took your heart  
I didn't mean to

I cannot control your mind  
don't think that I;m just talking trash  
o know you want mr, surely  
night's already passed  
it's getting early  
roll some weed  
call on some girls  
only if the vibes are right  
I want you all yo myself  
I'm tryna blow, your mind  
threesome, her friends overheard me  
I left the girl, now she wanna hurt me  
soending my cash in a hurry  
killing me softly  
she had no mercy  
babay you're driving me mental
