Dua Lipa, For Julian

What would you do
What would you do if I handed you a drug
That would teach you something new
What what you feel
How would you feel if I took over the fake
And made them all real
What would you say
What would you say if I told you
It's actually gone be a good day

[Chorus]
Maybe all things things happen for a reason
You just need to get over this dry season
But the only drug you need is believing
Maybe God does answer all your prayers
Maybe you need to let go of the fear
Of being let down from the people you keep near
Maybe it's because you're running low on gear
But maybe God does answer all your prayers
[Verse 2]
What do you need
What do you need to show you
There's better things in life than good weed
What do you hear
What do you hear
What do you hear when I tell you I'm always near
I made it pretty clear
What do you see
What do you see when you find out
The best things in life are all free
You have a friend in me

[Chorus]
Maybe all things things happen for a reason
You just need to get over this dry season
But the only drug you need is believing
Maybe God does answer all your prayers
Maybe you need to let go of the fear
Of being let down from the people you keep near
Maybe it's because you're running low on gear
But maybe God does answer all your prayers

[Bridge]
And I'm still here
And I'm holding hard onto your hand
And it still feels
Like you're never gonna understand
One can drown alone or we can swim together

[Chorus]
Maybe all things things happen for a reason
You just need to get over this dry season
But the only drug you need is believing
Maybe God does answer all your prayers
Maybe you need to let go of the fear
Of being let down from the people you keep near
Maybe it's because you're running low on gear
Maybe God does answer all your prayers

[Outro]
Maybe God does answer all your prayers
