Dua Lipa, Good Times

All I need is a little bit of honey
oh yes we do
I know there's gonna be

work everyday 'till we meet ends
I'm turning up on weekends
make a toast to ya real friends
tell me what ya drinking 'cause
I know there's gonna be good times
there's gonna be good times
there's gonna be good times
ohhhh
good times there gon' be some good times
'member used to pull up and let em fight
thats a hood time
'member used to hold on your ham
when nobody would time
yea I know that bitch tripping she ain't got that much
ti-i-ime
I don't waste time I don't waste time
I don't have patience baby
she trying to copy my shit but she be missin' the hits
wanna go fast wanna race me
we gon' ball, Walter Payton
we gon' fly through the station
come here bae you're a blessin'
and from you I learn ma lesson
pop quiz it's a pop quiz
all my money coming clean you can pop this
but she can't get it locked up like locksmith
watch her come to my lights like a reindeer
me and papi on the same pills
my diamonds never stand still
where you going, why you ain't heere?
sold your soul for that mess appeal

I know there's gonna be good times
there's gonna be good times
there's gonna be good times
there's gonna be goood
I know there's gonna be good times
there's gonna be good times
there's gonna be good times
ooohhh

we be riding like a mothafuckin stroller
I survive in a mothafuckin gutter
That's my mothafuckin roadie like the noila
and I'm colored red like Coca-cola
Imma have a very good ti-ime
I swear to God I can never find li' shorty
she said she likes all of my man's rhymes
where is my phone that money be calling
I want you to pass it to thugga thugga
even in the summer time me and shorty hustle
I swear to God imma tip you, ain't gotta struggle
baby girl sit it down you not know like a usher
I told lil baby I don't bite but my teeth do
I wanna control you like voodoo
Im steady screaming free unfunk and DuLu
Every time I have a good time you do too.
