

# C-BooL x Nice Guys, Higher

oh my God, another boring day  
I still didn't know if everything's ok  
but there is something new  
there's something I can do  
just whit you

someone said it's really nice to fly  
a simple plan, we can do it at night  
I am gonna take you higher  
we're gonna light this fire  
hold me onw

we have to bring some stardust form the sky  
together we will learn how to fly  
I gotta take you higher, higher  
higher, far from the ground

I gotta take you higher,  
I gotta take you higher, higher  
I gotta take you higher, higher  
higher, far from the ground  
from the ground

we have to bring some stardust form the sky  
and we will not return till the morning light  
I gotta take you higher, higher  
higher, far from the ground

I gotta take you higher,  
I gotta take you higher, higher  
I gotta take you higher, higher  
higher, far from the ground

we have to bring some stardust form the sky  
together we will learn how to fly  
I gotta take you higher, higher  
higher, far from the ground

I gotta take you higher,  
I gotta take you higher, higher  
I gotta take you higher, higher  
higher, far from the ground  
from the ground
