Duit, All The People (feat. Jesse Boykins III)

We come so far

All The People
All The People
All The People
They don’t know each other
But they NEED you
I say
No equal;
No equal;
No equal;
But I do reflect
To know your truth

When you brings this
[?]
Don’t you dare ignore
Don’t you keep you for
Keep your eye on the us
[?]
When you

The People
They are like the weather

The People
The People
The People
They were all [?]

You said
Nobody knows
So there’s nothing to go
But the people
They like the weather
