R3HAB x Kelvin Jones, Downtown

Every night we gotta think of
A place we can go and be alone
Anytime you wanna get out
Then just let me know, hold my hand

Let me take you downtown
It’s about to go down
Gettin; high under all the city lights
You won’t have to feel lonely
When you are with me
Let me take you downtown
It’s about to go down
Down, down

Da da da
Dum dum dum
Da da da
Dum dum dum
It’s about to go down

Count the days
When you’re not with me
I am going insane
Out of my brain
Nobody gon’ keep me and you here
We running away, our escape

Let me take you downtown
It’s about to go down
Gettin; high under all the city lights
You won’t have to feel lonely
When you are with me
Let me take you downtown
It’s about to go down
Down, down

Da da da
Dum dum dum
Da da da
Dum dum dum
It’s about to go down
