

# Carly Rae Jepsen, No Drug Like Me

Take me to the limit, hold me down there  
You say you love me but you wouldn't dare-are  
You're tryna make it easy, you know that I care  
You say you love me but you wouldn't dare-are

Starry eyes, blurry eyes  
Feeling so intoxicated  
Worried eyes,  
I'm open wide  
Take me so up and down

and if you make me feel in love  
then I'll blossom for you  
if you make me open up  
I'll tell only the truth  
when your mouth is running dry  
your head high, hold on baby  
you aon't tried no drug like me

and if you make me feel in love  
then I'll blossom for you  
if you make me open up  
I'll tell only the truth  
when your mouth is running dry  
your head high, hold on baby  
you aon't tried no drug like me

I see you spinning around in your head  
a little history iof us in there  
and now we've finally got to the safe other side  
why would we risk if for another try?

Starry eyes, blurry eyes  
Feeling so intoxicated  
Worried eyes,  
I'm open wide  
Take me so up and down

and if you make me feel in love  
then I'll blossom for you  
if you make me open up  
I'll tell only the truth  
when your mouth is running dry  
your head high, hold on baby  
you aon't tried no drug like me

and if you make me feel in love  
then I'll blossom for you  
if you make me open up  
I'll tell only the truth  
when your mouth is running dry  
your head high, hold on baby  
you aon't tried no drug like me
