Edward Maya, Love Story (feat. Sonia Devi)

I'm ready for love
I'm ready for you
I'm standing right here
I'm waiting for you
/x2

Surrounding the way
Far from my life
I need you to save me
And be by my side

I'm ready to Love
I tried letting go
But fear breaks apart
Straight from my heart

I'm ready to be
The woman for you
You're standing right here
Make this moment so true

I've quit chasing dreams
Releasing my tears
Wherever to hold you
Forever to love you

You'll Be Crying For Me /x8

In the end you'll find your own way home
Break my heart
Take your love with you
Just let me quit and end this

Esti? iubirea mea /x8

I'm ready for love
I'm ready for you
I'm standing right here
I'm waiting for you
/x2

Surrounding the way
Far from my life
I need you to save me
And be by my side

I'm ready to Love
I tried letting go
But fear breaks apart
Straight from my heart

I'm ready to be
The woman for you
You're standing right here
Make this moment so true

I've quit chasing dreams
Releasing my tears
wherever to hold you
Forever to love you

You'll Be Crying For Me

In the end you'll find your own way home

Break my heart
Take your love with you
Just let me..
You won't just tell me the love love

Esti? iubirea mea /x4
