Edyta Górniak, My Way

you got it all
you leave me speechless every day
you make me fall
and love me in different ways
my world’s so small
whiteout you you got to keep me save
you got it all
there's nothing I would change

I think I’ve lost my mind
I hate to see you go
I need you all the time
I don’t wanna be alone, no!
don’t wanna say goodbye
so baby hold me close
there's something you should know

I want you
my, my, my way
keep you to stay
have you to myself
believe in hell
make me feel the same
I want you
my, my, my way
my way

you make me blush
the way you look into my eyes
and make that rush
the way I feel, I just can’t hide

whit every touch
I want you more, I can’t deny
this is love
so take my hand and save the night

I think I’ve lost my mind
I hate to see you go
I need you all the time
I don’t wanna be alone, no!
don’t wanna say goodbye
so baby hold me close
there's something you should know

I want you
my, my, my way
keep you to stay
have you to myself
believe in hell
make me feel the same
I want you
my, my, my way
my way

I want you
my, my, my way
keep you to stay
have you to myself
believe in hell
make me feel the same
I want you
my, my, my way
my way
