Selena Gomez, Trevor Daniel, Past Life

I am trying to be honest whit my happiness
Don’t know why i am bad at this

And i don’t wann sit in all my sadness
I know it’s a habit of mine

Perfect /2x
timeing
i start, but i don;t know how to end
don’t re, don’t remind me
i rouined it before it began

last night was the lase night of my past life
got me here like you can never figure me out
last night was the last time, was the last time
i will never let you figure me out
sitting here, talking to myslef
thinking how i used to use to use you
only thing i am used to
last night was the last time, was the past live

give me what i wanted i needed it
honlestly, i mea nit
and i could convince myslef to feel it
you know i would feel it, i would
