Ella Henderson, Take Care Of You

I know you're hurting
I know it's rough
I know you seen s omany things that mess you up
I know i ma learning
I know i ma young
But when the shit gon' hit the fan, i'll be the one

I'll take care
Take care of you
I'll take care
Take care of you
And all of the things that no one else will do
Yes, all of the things that no one else will do
Like take care of you
Take care of you

If you told me that you were down
I'd slay your beast
And make your darkness turn artound
And i know ut's scary
That's for sure
But now you don't
Don't have to feel that anymore
You can wear it
Hear on your sleeve
And i'll protect it, baby believe

I'll take care
Take care of you
I'll take care
Take care of you
And all of the things that no one else will do
Yes, all of the things that no one else will do
Like take care of you
Take care of you
