SOXSO, NOISE WASH

I remember the day when he came to my room
And I saw the rain everywhere
He said that he wouldn't cry a lot
But I saw all his tears inside his heart
I was so unprepared
And I just had to paint my mind

Why are you like drugs?
I swallow you and immediately die

I created my own world when he left me there
And I should, I should stay intact
It's not so simple when fight is so boring that you want to fall
So now, where's the new land?

Why are you like drugs?
I swallow you and immediately die

Can you imagine how we could wash your noise
I still hear your voice: "Noise wash, noise wash"
Can you imagine how we could wash your noise
I still hear your voice: "No, no, no, noise wash"
/2x

Why are you like drugs?
I swallow you and immediately die
Why are you like drugs?
