Era Istrefi, Prisoner

I know where this is headed
I've seen it all before
so many oof them like you on the block
if you wanna come and get it
then you better be sure
cause I know where this is headed
make it stop
tryna mess wint my mind
but I'm trapped on both sides
better hurry up or you don't have a prayer
I know where this is headed
I've seen this one before
I don't really wanna watch you running scared

not even tryna fall in love
bur you ain't gonna keep me in this cuffs

boy, you drive me crazy
don't wanna wait, just get me what I want
cause so when I get angry
it's is like looking down the barrel of a gun
I know you like to play with fire
but if you get too close, you might be burnet
so you better run and take no prisoner

yes, me in the corner
and you roll the winds down
sorry, but for me that's not rnough
you just keep it moving
like you've heard a siren aound
and you don't even stop to show me love
tryna mess with my mind
but I'm trapped on both sides
trust me, you don't wanna hear that click
sit me in the corner
and you roll your windows down
I don't think and I'm acting quick

not even tryna fall in love
bur you ain't gonna keep me in this cuffs

boy, you drive me crazy
don't wanna wait, just get me what I want
cause so when I get angry
it's is like looking down the barrel of a gun
I know you like to play with fire
but if you get too close, you might be burnet
so you better run and take no prisoner

stand up /2x
both hands when I can see
stand up /2x
you're not enough
stand up /2x
both hands when I can see
stand up /2x
you're not enough

boy, you drive me crazy
don't wanna wait, just get me what I want
cause so when I get angry
it's is like looking down the barrel of a gun
I know you like to play with fire
but if you get too close, you might be burnet

so you better run and take no prisoner
