Fergie, Tension

all these vibes, so blase blase blach
I need your high,
c'mon /3x
when we lock eyes
I'm yours /3x

your body got these moves
your body ./2x
higher
your body – I know it wants me
your body is blowing my mind, cause

all this tension that we can't control
got me catching feelings on my dance floor
damn, I;m hoping that we take it home
got me catching feelings on the dance floor

ain't gonna lie, you got me open wide
the way you move is setting me of fire
my throat is soar
come pour some more
you're all mine
yours, I'm yours /2x
your body got these moves
your body ./2x
higher
your body – I know it wants me
your body is blowing my mind, cause
all this tension that we can't control
got me catching feelings on my dance floor
damn, I;m hoping that we take it home
got me catching feelings on the dance floor

so forget distance
come and pull my tight
come you feel this tension?
we could go all night
we could get it started
make it radiant
I;m gonna call you sally
when you make me sweat
and you know like I know
I'm getting alone /3x
I'm about to take you home

all this tension that we can't control
got me catching feelings on my dance floor
damn, I;m hoping that we take it home
got me catching feelings on the dance floor

all this tension that we can't control
got me catching feelings on my dance floor
damn, I;m hoping that we take it home
got me catching feelings on the dance floor
