# Take That, Giants

We’re giants
Can’t believe it
We’re giants
All along
On the surface
And all around us
We’re giants
We’re strong
I see you standing
Se you dancing
Giants
Can you feel it?
So much bigger than we thought

I think I might be heading out of body
I’ve gotta love
You’ve gotta love somebody

When I look into your eyes
I’m bigger than the night sky
As high as the Sun
High as a storm
We’re giants /3x

There are giants actress the water
There are giants heading home
In the middle of the madness
There are giants being born

I feel like braking the ___ glory
I’ve gotta love
You’ve gotta love somebody

When I look into your eyes
I’m bigger than the night sky
As high as the Sun
High as a storm
We’re giants /3x

We’re giants
In our hearts
We’re giants
Every one of us
We’re giants /2x
