Give it to me!

I met a boy last week tryina run that game
Made it sound so sweet when it say my name
I said boy stop, run that back
You can talk bad talk but can you play that sax?

Met a boss last night buying out the bar
Said I could ride top down in his Jaguar
I'm like boy stop, run that back
You can drive all night, but can you play that sax?

Baby, baby I've been waiting for someone to blow my mind
Hey, give it to me!
Baby, baby you can get it if you got that thing I like
Hey, uh

I need a space mobile the way to chase down south
The type of red hot love forgot me freezing 'cause
Say you can go all night the way you lay back now
But if you wanna hear me sing, you better that sax
Give it to me!

You better play that sax,
Go play it, play it
You better play that sax

I met a dude last week honey he's so vengy
He be loving himself more than Kim and Yam

You a smart ass dude, mister know it all
Think you got flood now down to a formula

You better play that sax

No fancy cars or bass guitars
Fellows in suits smoking on cigars
Those little boys makin' all that noise
But you ain't gonna steal that show
No fancy cars or bass guitars
Fellows in suits smoking on cigars
Just play that song I know
Take a deep breath and blow

Get loose, get right
Get grip & rock me all night

Hold tight, lean back
Play one on one with that sax
