Foster The People, Pay The Man

What you mean
/4x
What you see
/2x

Oh, no!

Well I need a little something
TO pull my head off
/2x
Need a little something
Because I've been running form the truth
Will never lose
Lies come from loose teeth
Thed to the nose
Climbing up my own tree
Hoping it can hold all the things
I've seen but I've chosen to ignore
Well, I said
Well, I believe
I've been well fed, yeah
But the wolf's not dead

Say what you love
It's alright
Don't be afraid to find the light
Embrace the day like night
We hear the fire
We all go wild again!
Do you have the name of someone I love
You said, just keep it true
Lift up your name
Seasons change
You know till it'll never never be the same
We;'ll see the Sun again
Before it fades I just wanna day that I love you!

Pay the man /2x
Got to pay the man
Run as fast as you can
Call out to God
Praise to the Most High
Call out for help
Cause I;m playing with fire
Call out to the mountains
Till my voice goes faint
Echoes through time then goes back with new strength

And when It's raining
We're sailing /3x

I'm off the leash
I go for war fior peace
Must have been touching everything that I can
I've got blood on my hands
Guess I'm going deaf
With cry of this sin
Please forgive me
I don't understand
We be believe we've been well fed

The deaf man heard
What the mute man said
Then they all followed where blind men led

Say what you love
It’s alright
Don’t be afraid to find the light
Embrace the day like night
We hear the fire
We all go wild again!
Do you have the name of someone I love
You said, just keep it true
Lift up your name
Seasons change
You know till it’ll never never be the same
We;’ll see the Sun again
Before it fades I just wanna day that I love you!
