TONES AND I, THE KIDS ARE COMING

no one wants to listen to the kids these days
the fib these days
thay say that we're all the same
but they're the ones to blame

speaking of the young as if we killed someone
but we don't need your guns
we're all too busy on the run
tryna be someone

the kids are coming
the kids are coming
the kids are coming
the kids are coming

the kids are coming
the kids are coming
the kids are coming
the kids are coming
for you

no one seems to understand the kids these days
and why we live this way
we've got to clean up the messes you've made
still you don't wanna change

you create the law but can't control our thoughts
and no we won't be bought
we don't just protest for the fun
we're here to get it done

the kids are coming
the kids are coming
the kids are coming
the kids are coming

the kids are coming
the kids are coming
the kids are coming
the kids are coming
for you

now you're gone and done it and
we lock you in the basement
marching through the streets is not the
only way to change things
now you're gone and done it and
we lock you in the basement
marching through the streets is not the
only way to change things

the kids are coming
the kids are coming
the kids are coming
the kids are coming
for you
