G-Eazy, Carnage, Down For Me (ft. 24hrs)

She got a body like Rihanna
Double rice at Benihana's
Uptight but drive a Honda
She was the only one down for me
She got an ass like her momma
She said, she not with the drama
You get her number, better call her

She was the only one down for me
She was the only one down for me
Only one down,
Only one down
She was the only one down for me
She was the only one down for me

Stay loyal and stay down
By my side every night
When I lay down
She would always pick me up when I break down
I knew her secrets
We both from the same town
She had everything that I need
But half of my lifestyle was high speed
She wants Netflix and chill and to light wees
She wants marriage and one day, my seed
But, I'm moving at light speed ;)

And distance is stress
Not what I need
Facetime's only when I see her face on live feed
Worlds apart so it's harder to succeed
Yes, but true love is true pain
I felt like Bruce Wayne
The bolt like Usain
Had a hard time adjusting yo new fame
My life ain't the same since you came

She got a body like Rihanna
Double rice at Benihana's
Uptight but drive a Honda
She was the only one down for me
She got an ass like her momma
She said, she not with the drama
You get her number, better call her

She was the only one down for me
She was the only one down for me
Only one down,
Only one down
She was the only one down for me
She was the only one down for me

Yes, sun coming up
Laying wide awake
Seeing images of you that I;m tryna shake
Stomach turning from mistakes
I wasn't tryna make
And all the promises that I will brake
I try to act like there's nothing wrong
It seems every week I make another song about you
My bros are like, What's going on?
Quit tripping, bro, you need to be moving
With all due respect, a good bitch
But suffer we broke up it seems her mood switched

Things could be different
I'd never choosed this
I text and she answered like,
Now phone, who's this?
And that's as wild as shit gets
She's not the same person
As we was when we met
I'm not the same earlier
Probably change with each step
I take a deep breath and try to reset

She got a body like Rihanna
Double rice at Benihana's
Uptight but drive a Honda
She was the only one down for me
She got an ass like her momma
She said, she not with the drama
You get her number, better call her

She was the only one down for me
She was the only one down for me
Only one down,
Only one down
She was the only one down for me
She was the only one down for me
