Harry Styles, Medicine

help me take my medicine
take my medicine
treat you like a pill
give me the adrenaline
the adrenaline
think I’m gonna sick with you

can i take my medicine
take my medicine
rest it on your fingertips
up to your mouth
feeling it out
feeling it out

I had a few
got drunk on you
and now I;m wasted
and when I sleep
I;m gonna dream of you

if you go out tonight
I’m going out
cause I know you’re persuasive
you got the salt and I got me an appetite
now I can taste it
you get me dizzy /4x

tingles running through my blood
fingers to my toes
tingles running through my bones
closing the doors
The boys and the girls are here
I mess around with him
And I’m OK with it.

I had a few
got drunk on you
and now I;m wasted
and when I sleep
I;m gonna dream of you

I’m coming down
I figured out I kinda like it
and when I sleep
I;m gonna dream of you

if you go out tonight
I’m going out
cause I know you’re persuasive
you got the salt and I got me an appetite
now I can taste it
you get me dizzy /4x
