# Hurts, Beautiful Ones

Pick up your phone
Put on your coat
Everyone's lookin up at you
Push you through crowd
Into the sound
Everyone's talking about you
Don’t be afraid
Honey, one day this will fade
So put up a smile
Do it in style
Make them all desperate to be you

Make them all desperate to be you
Make them all desperate to be you

Don't think twice
Give yourself to another night
Hold on tight
Hope that you make it out alive
Oooo
We are the beautiful ones
Oooo
We are the beautiful ones

It’s just a phrase
You’re not to blame
For everyone trying to please you
But you’re too young
To come undone
So don’t let them try to deceive you
Don’t be ashamed
Honey, one day this will fade
So put on your coat
Give the a show
Make them all desperate to be here

Make them all desperate to be here
Make them all desperate to be here

Don't think twice
Give yourself to another night
Hold on tight
Hope that you make it out alive
Ooooo
We are the beautiful ones
Ooooo
We are the beautiful ones

We are, we are, we are the beautiful ones /8x

Oh baby,
Don't think twice
Give yourself to another night
Hold on tight
Hope that you make it out alive
Ooooo
We are the beautiful ones
Ooooo
We are the beautiful ones

Beautiful, so beautiful/7x
We are the beautiful ones
