Icona Pop, Brightside

I wear a smile, you ride the frown
I was do my best to get you upside down
When you're fully shade, I rearrange the clouds
Got my head up but we're going south

I will be the rose to tint your glass
Spray paint the lawn to get a greener grass
I'll be your Brightside then cause all I wanna do is make you feel a little better
I'll be your cheerleader with no allowance, baby I'll be on the bleachers

Get up, get up tonight
I will be the one to show you your Brightside
/2x

To show you your Brightside

If the nightmares come, I'll wake you up
I'll give you lucky charms and a sunny-side-up
When your streak runs out, I'll win you more
I'll be your four-leaf clover and a unicorn

I will be the rose to tint your glass
Spray paint the lawn to get a greener grass
I'll be your Brightside then cause all I wanna do is make you feel a little better
I'll be your cheerleader with no allowance, baby I'll be on the bleachers

Get up, get up tonight
I will be the one to show you your Brightside
/2x

To show you your Brightside

Now we’re down here
It can only get better
See it all clear
We’ll at least we're together
Laying under the stars
Thinking about who that we are
Claiming about all that we are gonna be
Laying under the stars
I know that it's dark
But let me show you the Brightside

Get up, get up tonight
I will be the one to show you your Brightside
/2x

To show you your Brightside
