for real
ll this real
all thia real we got it
all of us in the building
we in the building
put your hands to the ceiling
keep your hands in the ceiling

tell people who the real name
show people who the real is
show people what the deal is
all that's for real
long life that's ill

I get the money, I'm going crazy
long night hard night shit made me
ducking slugs, police shit raise me
stay strong
head focus rich baby

I know I'm the realest
stay focus in the building
see the Sun from the mile away
we could run hard I could feel it

run hard I could hear it
run hard I could steer it
se my soul floating up
can't feel noting
just feel the spirit

go hard or go home baby
ger rich and get home crazy
ice fase and live long
made me
lice fast and live long,
raised me

I'm falling in buildings
I'm falling in billions
I'm falling in millions
I'm falling in trillions

see they suicidal
thinking all the killing
thinking why they hating
thinking all the drilling
I'm falling off

I'm falling in buildings
I'm falling in billions
I'm falling in millions
I'm falling in trillions

see they suicidal
thinking all the killing
thinking why they hating
thinking all the drilling
I'm falling off
