ItaloBrothers, London

(All around the place we go to Lon Lon don
Then it's down one town
Just for the love love
See the lights Paris
Then we can run run back
Meet at the beginning all again...)

I'm looking in her London eyes
I wana travel round her mind
I wana be away for a long time
Never just a night want this for life
Keeping me alive stay by side
If you feel the same
We should catch a plane yeah hey

All around the place we go to London
Then it's down one town
Just for the love love
See the lights Paris
Then we can run run back
Meet at the beginning all again yeah
All around the place
Hey I'm in London thinking bout the one one
I'll take the thunder with the sun and wonder back
Meet at the beginning all again yeah
All around the place
All around the place

All around the place

We're in the city of royalty
I feel the love your loyalty
Brings over me that's why we fly
All around the world then come back home
We would never forget where we're from
Still my favourite place, you can set the pace yeah hey
