James Blunt, Love Under Pressure

I gave it all
But it’s not enough
I feel it all
Too much
I reach for the stars
But they let me down

I play the game
And you always knew
That I couldn't play
Without you
I hate to lose
I'm just too proud
But I'm not giving up, no
This time around

I can't believe we're giving up
(Love under pressure)
We only need the two of us
(Love under pressure)
I feel your pain from my mistakes
It's how it breaks
This love's under pressure

Have we los tour senses?
Are we going mad?
What happen here i stoo sad
I beed for a dream
But ir’s not mine to have

Where did you do?
Whitout a care
You didn’t show
I am still here
How ca nit be?
You do the maths
The fire that burned
Has turned into ash

I can't believe we're giving up
(Love under pressure)
We only need the two of us
(Love under pressure)
I feel your pain from my mistakes
It's how it breaks
This love's under pressure
I can't believe we're giving up
(Love under pressure)
We only need the two of us
(Love under pressure)
I feel your pain from my mistakes
It's how it breaks
This love's under pressure

This love's under pressure
This love's under pressure
This love's under pressure
