John Legend, Penthouse Floor (ft. Chance the Ra

All this trouble in this here ton
all this shit going down
when will they focus on this
streets ride up with TV cameras
look ma, we on the news
but they didn’t notice
before this
they float above the city light
forget the truth inhale the lies
just enjoy the show
they see us reaching for the sky
just ignore the them to survive

maybe we should go
go to the penthouse floor
let’s go /3x
go to the penthouse floor
let’s go /3x
let’s ride the elevator
they can’t keep us out no more
go to the penthouse floor
let’s go /3x
penthouse floor

all that bubbly all that wine
man look at the times
didn’t notice, notice
only future I can see
ain;t what it used to be
and I didn’t know this
I didn’t know this

once you’re above the city lights
won’t want to spent another night
down this on your own
they holding on is made for us
the attitude is dangerous
but we ain;t going home

maybe we should go
go to the penthouse floor
let’s go /3x
go to the penthouse floor
let’s go /3x
let;’s ride the elevator
they can’t keep us out no more
go to the penthouse floor
let’s go /3x
penthouse floor

don’t bring me down
I need a room in the clouds
I wanna get there babe
I wanna elevate
my favorite mix
a little ignorance and bliss
in the penthouse babe
go to the penthouse

maybe we should go
go to the penthouse floor
let’s go /3x
go to the penthouse floor
let’s go /3x

let;’s ride the elevator
they can’t keep us out no more
go to the penthouse floor
let’s go /3x
penthouse floor

we’ll tear down the penthouse door
these penthouse door
baby I’m in the penthouse floor
let’s ride the elevator
till we can rise some more
go to the penthouse floor
go to the penthouse floor
let’s go /3x
