# John Legend, Wild (feat. Gary Clark Jr.)

I just bought a new car
One where the top goes down
So we can see the stars
I wanna take you so far
Out past the Saturn rings
And into my heart

I wanna drive you
Wild /3x
I wanna love you
For miles and miles
We can go slow
We don’t need to rush
I’ll take a wheel
Make you feel every touch
I wanna drive you
Wild /3x

Lay on the passenger’s side
Tell me how fast you want
We’ll get there tonight
Fire, you stet me on fire
I swear you’re yhe only one
I’d take on this ride

I wanna drive you
Wild /3x
I wanna love you
For miles and miles
We can go slow
We don’t need to rush
I’ll take a wheel
Make you feel every touch
I wanna drive you
Wild /3x

Wanna love you
Wanna touch you
Wanna driver you
Wild /3x
Wanna love you
Wanna touch you

I wanna drive you
Wild /3x
I wanna love you
For miles and miles
We can go slow
We don’t need to rush
I’ll take a wheel
Make you feel every touch
I wanna drive you
Wild /3x
