Jonas Blue, RetroVision, All Night Long

sleepwalking
catch a feeling
carry on
slow down
cause I will be whit you
all night long
free falling
keep believing
carry on
cause I will be whit you
all night long

I know that i love it when we're high
cause I will be whit you all night long

I know that i love it when we're high
cause I will be whit you all night long

lately I've been thinkin
about the way you looked at me
looked at me
even though we're strangers on the dark
you're all I need
and I won't leave
