

# Duke Dumont, Ebenezer, Inhale

high of life  
ow on sleep I've been up all week  
maybe, there could be somebody that saves me  
I've been faded quite lately  
it's no fun when you're alone

now I gotta call a taxi  
my car broke down  
dead battery  
I've been blocked off my uber  
the drivers a dickhead if you ask me  
cause I was smelling like an ounce  
like is that what your summertime bounce  
I came here to get lifted  
I'll be surfing clouds

that's when I first aw you  
looking like a Friday night out  
I wanna take you you the crib  
and cut all the lights out  
cause I need you company  
I know I need it right now  
tight now

baby I'ma need another hit  
cause I want your love  
inhale – exhale /2x

baby I'ma need another hit  
cause I want your love  
inhale – exhale /2x  
aww yeah!

can you roll?  
if so then I can get it for the low  
what you need?  
trust me everything is better with the green  
don't kill my vibe  
don't blow my buzz  
cause I;m a friend

ménage trois let's make it 2  
selfish iu need you for me  
you'll be llike my meditation  
doctors seem to be the onlyone with patience  
don't need a cure for these symmptoms  
I just need some sassistance  
I came here to get lifted up

that's when I first aw you  
looking like a Friday night out  
I wanna take you you the crib  
and cut all the lights out  
cause I need you company  
I know I need it right now  
tight now

baby I'ma need another hit  
cause I want your love  
inhale – exhale /2x

baby I'ma need another hit  
cause I want your love

inhale – exhale /2x  
aww yeah!

let me love you  
there's no better way  
to spend the day  
than getting high with me  
let me love you  
there's no better way  
to spend the day  
than getting high with me
