Jonas Brothers, Strong Enough ft. Bailey Zimmer

Been a hell of a week but we made it yea we made it
Yea the bar shutting down but we staying yea we staying

Only got so long till the morning comes
And life is too short to be wasted

So light me up twist me something good
Make it strong enough
Last long enough
Before the night is up
Just give me something good
Pour me all your love
Make it strong enough
I'm never coming down
Make it strong enough
I'm never coming down

Always say what I want when I'm faded
And I'm faded
Put it on play our song till we break it
Till we break it

Only got so long till the morning comes
And life is too short to be wasted

So light me up (Light Me Up)
Twist me something good
Make it strong enough
Last long enough
Before the night is up
Just give me something good
Pour me all your love
Make it strong enough
I'm never coming down
Never coming down

Make it strong enough
Strong Enough (3x)
Never coming down (5x)
So light me up twist me something good
Make it strong enough
Last long enough
Before the night is up
Just give me something good
Pour me all your love
Make it strong enough
I'm never coming down
Never coming down
