June 66, Love, Love, Love (piosenka z 'Mam tale

Love, yeah!

I wanna fall in love with you ah, ah
I want your kiss so bad
My head is spinning from too much booz
I feel like end up to soon
Oh no woah oh no woah
Oh no woah oh no woah
The only cure for me at this moment
Is to drink to have some fun a bit longer
But it means nothing when I am without you
Hey! Tell me what more can I do

Woah babe, you look like such a good good lady
I want your, I want your
Just shake it, shake it mama make it go

I want your love, love, love
I wanna feel it in my bones

I want your love, love, love
I wanna feel it in my bones

I want your love, love, love
I wanna feel it in my bones

I want your love, love, love
I wanna feel it in my bones

Guitar
Come on, come on, come on

Another day im acting tough
Sleepless nights so many times
Is there other way to not end up like me
For this moment no solution I can see
Oh no woah oh no woah
Oh no woah oh no woah
I told you love is all I need
You say if you want to use me first set me free
Its like Im out of a game when you play dirty game
But your second move always makes my day

Woah babe, you look like such a good good lady
I want your, I want your
Just shake it, shake it mama make it go

I want your love, love, love
I wanna feel it in my bones

I want your love, love, love
I wanna feel it in my bones

I want your love, love, love
I wanna feel it in my bones

I want your love, love, love
I wanna feel it in my bones

Here we go!

Tell me something girl I want to hear
Show me something girl I want to see
Cause you know that all I need is to feel it in my bones

Give me something girl I want to have
Make my wish come true, cause I feel blue
Now you know, now you know that all I need and all I want is your love

I want your love, love, love
I wanna feel it in my bones

I want your love, love, love
I wanna feel it in my bones

I want your love, love, love
I wanna feel it in my bones

I want your love, love, love
I wanna feel it in my bones

I wanna feel it in my bones
Come on, come on
I wanna feel it in my bones
Oh yeah
I wanna
I wanna
I wanna feel it in my bones
