Justin Timberlake, My Favorite Drug

Ooh, dance
Just let your feet slide
No hands
You tryna get high
Yes, you can
It feels too right to leave it up to chance
So come on take a chance

Your hips is making me hypnotized
How your vibe just fits into mine
Heart in your eyes leaves sparks in the mind
You can flip it up like a 6 and a 9
Is the vision aligned?
I got a place way up in the sky
Wanna go, wanna ride
Do you feel that?

We just might be falling in love tonight (Ooh-ooh, I'm 'a give it to you)
You feel like my favorite drug tonight (Ooh-ooh, I'm 'a give it to you, ooh-ooh, I'm 'a give it to you)
You got me outta body, outta mind, let's go meet the sunlight
Got me thinking we just might
We just might be falling in love tonight (Ooh-ooh, I'm 'a give it to you, ooh-ooh, I'm 'a give it to you)

Now you're dreaming with your open eyes
And now we're traveling through time
You're my constellation, I'm your sign
And I know it's you

Ooh, dance
I wanna touch your body
No hands
You wanna touch my body, yes you can
It feels too right to leave it up to chance
So come on, take a chance

Your hips is making me hypnotized
How your vibe just fits into mine
Heart in your eyes leaves sparks in the mind
You can flip it up like a 6 and a 9
Is the vision aligned?
I got a place way up in the sky
Wanna go, wanna ride
Do you feel that?

We just might be falling in love tonight (Ooh-ooh, I'm 'a give it to you)
You feel like my favorite drug tonight (Ooh-ooh, I'm 'a give it to you, ooh-ooh, I'm 'a give it to you)
You got me outta body, outta mind, let's go meet the sunlight
Got me thinking we just might
We just might be falling in love tonight (Ooh-ooh, I'm 'a give it to you, ooh-ooh, I'm 'a give it to you)

Break it down
Hey fellas (Yeah)
Hey fellas (Yeah)
I know I did it before but I'm 'a do it again (You gon' do it again?)
I'm 'a do it again
Hey ladies (Yeah)
I said ladies (Yeah)
I know you came here alone but you gon' leave with a friend (I'm 'a leave with a friend?)
We gon' do it again (We gon' do it again)
We gon' do it again (We gon' do it again)
We gon' do it again (We gon' do it again)
We gon' do it again (We gon' do it again)
Hey, everybody sing

I'm going until you take me down, down
I'm not myself when you come around
I'm going until you take me down, down
We just might be falling in love right now

We just might be falling in love tonight (Ooh-ooh, I'm 'a give it to you)
You feel like my favorite drug tonight (Ooh-ooh, I'm 'a give it to you, ooh-ooh, I'm 'a give it to you)
You got me outta body, outta mind, let's go meet the sunlight
Got me thinking we just might
We just might be falling in love tonight (Ooh-ooh, I'm 'a give it to you, ooh-ooh, I'm 'a give it to you)

This is the part
I know what you want
What you been waiting on
Wait for it
This is the part
When you get off
Maybe I said this before but, uh

Everybody dance

We just might be falling in love tonight (Ooh-ooh, I'm 'a give it to you)
You feel like my favorite drug tonight (Ooh-ooh, I'm 'a give it to you, ooh-ooh, I'm 'a give it to you)

We just might be falling in love tonight (Ooh-ooh, I'm 'a give it to you, ooh-ooh, I'm 'a give it to you)
