

# Elliphant, Step Down

I'm home, home alone  
I call  
Call again  
You not answering  
And I know  
You couldn't, you wouldn't dare  
To tell me how it is, you swear  
You busy but I know you don't care  
So don't cry man,  
Cause I just wanted a friend tonight

You hot, I'm cold that's why I  
That we could make a cloud run  
You can't get no higher  
Fuck you, you're not my type at all

Why don't you just step down?  
Why don't you just step down from your high?  
Was this from where you  
Can't see a thing you miss  
I don't so much mate  
Why don't you just step down?  
Why don't you just step down from your high?  
Was this from where you  
Can't see a thing you miss  
I don't so much mate

You only flute all day  
Never heard a word  
Drippin' from your wacky  
You got shit to say  
And push it me  
Don't think just  
I own my emotions  
Shit happens and I just still want a friend tonight

You hot, I'm cold that's why I  
That we could make a cloud run  
You can't get no higher  
Fuck you, you're not my type at all

Why don't you just step down?  
Why don't you just step down from your high?  
Was this from where you  
Can't see a thing you miss  
I don't so much mate  
Why don't you just step down?  
Why don't you just step down from your high?  
Was this from where you  
Can't see a thing you miss  
I don't so much mate

Say what  
Jump down  
Hey  
So jump down

You hot, I'm cold that why I (why don't you just step down?)  
Thought we could make a cloud run (why don't you just step down?)  
You can't get no higher (you step down)  
Fuck you, you're not my type at all (fuck you)  
Why don't you just step down? (just step down)  
Why don't you just step down from your high? (from your high)  
Was this from where you

Can't see a thing you miss  
I don't so much mate  
Why don't you just step down? (step down)  
Why don't you just step down from your high? (step down from your high)  
Was this from where you  
Can't see a thing you miss  
I don't so much mate
