K-391 & Alan Walker, Ignite (feat. Julie Bergan &

fireflies
a million little pieces
feeds the dying light
and breathes me back to life

in your eyes
I see something to believe in
your hands are like a flame
in brings the sweetest pain

let the darkness lead us into light
let our dreams get lost
feel the temperature rise
baby tell me one more time beautiful lie
one touch and ignite

like a starship speeding into the night
you and I get lost in the infinite light
baby tell my one more beautiful lie
one touch and ignite
one touch and ignite
one touch and ignite

so alive
you touch is like the daylight
burning on my skin
it turns me one again

you and i
survivors o the same kind
ad we're the only ones
dancing on the sun

let the darkness lead us into light
let our dreams get lost
feel the temperature rise
baby tell me one more time beautiful lie
one touch and ignite

like a starship speeding into the night
you and I get lost in the infinite light
baby tell my one more beautiful lie
one touch and ignite
one touch and ignite
one touch and ignite

diamonds are forever
but all we need is just tonight
we're monumental tremors that can freeze the speed of life
just like particles that's falling from heaven all over the stars
here you calling for me
here you calling for me afar

let the darkness lead us into light
let our dreams get lost
feel the temperature rise
baby tell me one more time beautiful lie
one touch and ignite

like a starship speeding into the night
you and I get lost in the infinite light
baby tell my one more beautiful lie
one touch and ignite
one touch and ignite

one touch and ignite
