K BLEAX, So Spiritual

Looking at you from my point of view,
It's what you do that makes me move,
Your love is just so spiritual
Voices heard across the streets,
Manipulating your own thoughts,
Your love is just so spiritual
Darkness in you blows around my soul,
You're pulling me out of control,
I loved that bit of me you've stolen

There's no need to repeat,
Mistakes we both made,
Coz I will be here with you right now,
I love the voices we hear,
They make me believe,
That you will be here with me right now

When stars appear in the sky,
You've disappeared out of my sight,
That's what makes me realize,
How hard you were to find?
Attracted to my own mind,
I love the way we both collide,
Oiling all the cogs my mind,
Uses to unwind,
Your love is just so divine

There's no need to repeat,
Mistakes we both made,
Coz I will be here with you right now,
I love the voices we hear,
They make me believe,
That you will be here with me right now
