Kaiser Chiefs, Burning in Flames

We can go out burning
Burning in flames
Burning in flames
Burning in flames
Set the stage, we can go out burning

When the wheels came off
We started flying
Then we tried to rise above the lightning
But the ride doesn't stop
Because this stage is a cage

Oh, when the stars came down
And danced upon the earth
And I was crowned king of the universe
The inevitable twist
Is that the stage was a cage

I would like to change your mind
Don't give up
Set the stage, we can go out burning in flames

Burning in flames
Burning in flames
Burning in flames
Set the stage, we can go out burning
Burning in flames
Burning in flames
Burning in flames
Set the stage, we can go out burning

And as the years go by, it gets much easier to not reply
They'll send the media to just remind
You that the stage is a cage

Here's to the road ahead
May all the bumps give you the gift of flight
And all the cracks reveal treasures bright
Because the stage is a cage

I would like to change your mind
Don't give up
Set the stage, we can go out burning in flames

Burning in flames
Burning in flames
Burning in flames
Set the stage, we can go out burning
Burning in flames
Burning in flames
Burning in flames
Set the stage, we can go out burning
