

Emeli Sandé, Starlight

you are my Starlight
you shine can brighten up
the darkest night
I'll follow you
until the daylight

'cause when you're close
I know it's alright
alright /3x

see baby you got it
I got it /3x
we got it
no baby /3x
don't stop it
we're taking off
and the higher we go
the harder I fall in love

in love
in love
I feel like I just find the the 1
the one
baby now look what you done
you done
you've lit up my life
y
you're love /5x
I in love

you are my sunshine
broke through the clouds
and I kissed the sky
feels like I'm dreaming
with open eyes
long as I'm with you
I know I'm alright
alright /3x

see baby you got it
I got it /3x
we got it
no baby /3x
don't stop it
we're taking off
and the higher we go
the harder I fall in love

in love
in love
I feel like I just find the the 1
the one
baby now look what you done
you done
you've lit up my life
y
you're love /5x
I in love
