Kelsy Karter, Harry

I blacked out, passed out,
first time we met
It wasn't drugs,
could be love,
but it's probably sex
I'm thinkin' 'bout you

cool stare greased hair curly around your eye
I wann take a dirty picture
send it to your mind
I am not just thinking ‘bout you

I will treat you better than the girls you’re hanging out with
take you to heaven and
I will show you al laround it
I will never evrt let you down

harry, I am gonna make you love me
you’re gonna make me breakfast
it’s a secret just between us
we can keep it low-key
I ain;t bein’ funny
you should be so lucky
to put your
put your velvet arms around me
I am gonna make you love me
so put your
put your velvet arms around me

I am startin’ at you in the magazines every day
feel like I am 17
never been touched this way
I'm thinkin' 'bout you

I will treat you better than the girls you’re hanging out with
take you to heaven and
I will show you al laround it
I will never evrt let you down

harry, I am gonna make you love me
you’re gonna make me breakfast
it’s a secret just between us
we can keep it low-key
I ain;t bein’ funny
you should be so lucky
to put your
put your velvet arms around me
I am gonna make you love me
so put your
put your velvet arms around me

harry, harry
mmm, harry
baby, I am gonna make you love me

so put your
put your velvet arms around me
I am gonna make you love me
you’re gonna make me breakfast
it’s a secret just between us
we can keep it low-key
I ain;t bein’ funny
you should be so lucky
I am gonna I am gonna

I am gonna make you love me
Harry!
