Khalid, Eleven

got my headlights off
we're sitting outside
if you cry in my car
then we're here all night
a couple blunts rolled and I got my windows down
said: it's been a while since you been this high

if you're waitin' on love
then you waitin' for a while
if the neightbors wake up
then we gotta turn it down
so you say I am the type you like keepin' around
you like keepin' around

late at night, eleven , we're cursing
lately I've been watchin' your movements
if I am the favorite drug you've been usin?
late at night, eleven , we're cursing
lately I've been watchin' your movements
if I am the only one that you're choosin'
am I your favorite drug you've been usin'?

21, sittin' on my M5
ride around summer
all wheel drive
couple blunts in and I got my windows down
lookin' real nice in my passenger side

if you're waitin' on love
then you waitin' for a while
if the neighbors wake up
then we gotta turn it down
so you say I'm the type you like keepin' around
you like keepin' around

late at night, eleven , we're cursing
lately I've been watchin' your movements
if I am the favorite drug you've been usin?
late at night, eleven , we're cursing
lately I've been watchin' your movements
if I am the only one that you're choosin'
am I your favorite drug you've been usin'?
