Kwabs, My Own

Fall into me, I got you now
I won't give up, never let you down
Let's get it straight, it's time to choose
I came to play, don't play to loose
Turn the next to me
Now I can get in the change
I've got the key, get out of cage
I want you all for my own

I don't need, no other love
There can be, no other love
You don't feel, no other love

What if I break, into your heart
Open the lactic gone that you got
What if I hope and never let it go
Would you turn around, say no
What if I step around out of time
Could I make up your mind
Cause I want to be in your love alone
I want you all for my own, yeah babe
I want you all for my own,

Drop it off, take a trip
Leave the world, like a rocketship
Just to the night, no passengers
We can take it off, if we go fast enough
You don't own me, don't love to spell
To much to miss, ,ot enough to share
I want you of my own

I don't need, no other love
There can be, no other love
You don't feel, no other love

What if I break, into your heart
Open the lactic gone that you got
What if I hope and never let it go
Would you turn around, say no
What if I step around out of time
Could I be got of your mind
Cause I want to be in your Love
I want you all for my own
I want you all for my own
I want you all for my own
I want you all for my own

I don't need, no other Love
There can be, no other love
Never believe, no other love
If you don't feel, no other Love
I don't need, no other Love
There can be, no other Love
You don't feel, no other Love

What if I break into your heart
Open the lactic gone that you got
What if I hope and never let it go
Would you turn around, say no
What if I step around out of time
Could I be got of your mind
Cause I want to be in your Love
I want you of my own
I want you of my own

I want you of my own
I want you of my own, my own, my own

What if I break, into your heart
Open the lactic gone that you got
What if I hope and never let it go
Would you turn around, say no
What if I step around out of time
Could I be got of your mind
Cause I want to be in your Love
I want you of my own
