Kygo, Never Let You Go (feat. John Newman)

Emotions like summer
Wake up at a blue sky
And that’s how I hold you
As we watched the sunrise

Cuz this is amazing
Running wild we do
My thoughts are hazy
This may be way too soon

But I won’t ever let you go
never let you go
at all
But I won’t ever let you go
never let you go
at all

And I won’t ever let you go
never let you go
at all
But I won’t ever let you go
never let you go
at all

I’m so lost in these simmer nights
so list in your crystal light
and even when this night is day
I won’t regret the words I’m saying

But I won’t ever let you go
never let you go
at all
But I won’t ever let you go
never let you go
at all

And I won’t ever let you go
never let you go
at all
But I won’t ever let you go
never let you go
at all

I will never let you go
never let you go
I will always keep hope!
