Kylie Minogue, Magic

I feel like anything could happen
The stars look different tonight
They’re glowing all around me
It’s flowing through my body
I can feel it
I can feel it

Don’t know if i am awake or dreaming
There must be something in the air
The time is disappearing
This moments never leaving
I can feel it
I can feel it

You got me started
Ain’t nothing on Earth can stop it
It’s crazy, i;m feelig
I don’t know what esle to cal lit
Do you belive in magic?
Do you, do you, do you
Do you belive in magic?
Dancing together
Ain’t nothing could be bettre
Tomorrow don’t matter
We’ll make the night last forever
So Do you belive in magic?
Do you, do you, do you
Do you belive in magic?

Free-falling it’s a new emotion
I swear thre’s diamonds in your eyes
Come hold me like you mea nit
Don’t wanna keep this secret
Can you feel it
My heart beating
You make me wanna do these wild things
Your touch is supernatural
I can’t fight this feeling
I am floationg through the ceiling
Can you feel it?
I can feel it

You got me started
Ain’t nothing on Earth can stop it
It’s crazy, i;m feelig
I don’t know what esle to cal lit
Do you belive in magic?
Do you, do you, do you
