

# Eminem, Freestyle (Elected For Ten Terms)

Eminem:

If I'm elected for ten terms  
I'm renewing the staff after the inagural  
And hiring all girls as interns  
If I don't like you, I'll snatch you outta your mic booth  
While you're rappin and pull your right through the window and fight you  
I'll take you straight to the pavement  
Uppercut you, and scrape your face wit a bracelet  
Like a razor that shaved it  
Three drinks and I'm ready to flash  
Runnin on stage in a G-string, wit a bee sting on my ass (Look!)  
It's probably all cuz I ain't awkward at all  
I just like to walk through the mall, stop, and talk to the wall  
And have a relapse after I just fough through withdrawl  
(Hop in the car little girl, I just bought you a doll)  
The Bad and Evil movement is comin  
Plus the music is pumpin like a pill freak wit a tube in his stomach  
I write a rhyme a day  
So it's no wonder how come your whole album  
Is soundin like a bunch of shit that I would say  
Whether it's one verse or one letter  
I'll probably be the cleverest one that never gets spun ever  
It's Slim Shady and Tony Touch, it's only us  
The rest of y'all are just stuck in the middle wit Monie Love
